- ✓ Hollow precast column 450x450mm
- ✓ No need to strut
- ✓ Height up to 3500mm
- ✓ Starter bars tie column to slab
- ✓ Standard beam length 4000mm
- ✓ Special beam up to 12,000mm

**Precast Concrete Beams -**  
designed to carry slats & cubicle beds  
for suspended floors, over tanks or central  
supports for a wide passage.

**Precast Concrete Columns -**  
450mm Square Hollow columns in  
any length up to 3500mm with integral  
lifting eyes. Free Standing, placed  
on reinforced slab over cast in starter  
bars to be filled with concrete to tie  
column into floor of  
tank or passage.
